

## Individual Membership

### Who becomes a member?

Anyone with an interest in palliative care - either a professional or personal interest.

Many of our members support a regional hospice, but also want to be informed and involved with developments at a national level, and access the professional development opportunities available.

### Annual subscription fee

The annual subscription fee is \$125 incl GST. The membership year runs alongside the calendar year.

### Membership benefits

- As an individual member of Hospice New Zealand you are able to apply to our **scholarship programme** - awards are made annually to several courses of study and conferences in various disciplines.
- **Discounted registration at the biennial conference.** This three day clinically focused conference brings international and local speakers together to showcase latest research and developments in care as well as network with you.

Members are eligible for the discounted registration rate, at least 10% of the standard registration.

### Keeping you informed

- You will receive our **magazine - The Review**, which has articles covering aspects of the multidisciplinary nature of hospice care, as well as highlighting specific education, clinical or industry focused topics. This is published online three times each year.
- You will also be invited to our **Annual General Meeting** (but are not able to vote) and receive our **Annual Review** as well as receiving our **e-bulletin The Kowhai** from time to time.
