

**An Opportunity for an Advanced Nurse in Specialist Palliative Care
Queenstown and Wakatipu Basin**

Are you a nurse with advanced experience and a passion for the delivery of palliative care, and has skills in empowering and mentoring health professionals and care workers to provide the very best in individualised patientcare?

At Hospice Southland we are passionate about the opportunity we have in providing the very best care for our patients and their families. We take huge pride from the strong community support we receive which ensures we are empowered to bring this to reality.

Are you an exceptional and skilled nurse looking for an opportunity to practice holistically, independently, and with a variety of roles and challenges? This is a wonderful opportunity to maintain and develop further the presence of Hospice Southland in the Queenstown and Wakatipu Basin area.

The person who is appointed to this role will liaise with both Health Professionals and the community in further developing and refining palliative care service in the region. They will offer assessment and support for patients and families, and provide advice, support, education and training to health professionals and aged care facilities across the area. Public relations and connecting with the community will be a significant component of this role.

Sound experience in palliative care, coupled with excellent communication skills, strong organisational abilities, and an aptitude for teaching are crucial. As this role will require a high level of autonomy and independent practice a minimum of 5 years post graduate experience in nursing is essential and preferably this would be in palliative care or a speciality that has similar qualifications requirements. It would be desirable that there has been an achievement or working towards completion of a master's degree in nursing and a continuing commitment to personal development ensuring that own skills and knowledge are maintained and advanced.

The role skills for this position would be comparable to either a CNS, NP/NP in training.
