

# Poi General Practitioner Liaison – Palliative Care

Part time 0.4FTE

Are you a General Practitioner with a special interest and passion for palliative care? Hospice West Auckland needs just such a GP to play a pivotal role at the frontline of this growing field in the health sector.

## What's Poi? What's in a name?

The Poi team assist primary care to proactively identify and support palliative care patients whilst developing the capability of residential care and general practice providers to respond to this growing need.

If you have watched Poi being swung in kapahaka, you will have seen the coordination and flexibility needed for the group to act as one. Similarly, our Poi Programme is about building relationships and working more closely with our partners to improve palliative outcomes.

## Must have requirements:

- General Practitioner, New Zealand registered
- Current New Zealand Practicing Certificate, Medical Council of New Zealand
- Minimum of 3 years experience, in general practice
- Skilled and experience in delivering education, support and mentoring
- Self-motivation, high level of initiative & excellent communication skills
- A genuine passion for holistic care and a demonstrated special interest in Palliative Care
- Hold a full and unrestricted NZ driver's license

## About the Job

You will work with an amazing multidisciplinary team of specialists in Palliative Care. Using your knowledge of primary palliative care and general practice, you will:

- provide general practice and residential care teams with supportive advice on the management of people with palliative care needs and to develop palliative plans
- help build the palliative care workforce capability within general practice and residential care
- contribute to and deliver a range of educational programmes and initiatives
- promote the Poi team services and benefits
- Part time 0.4 FTE role (days and hours negotiable)
