

**GENERAL PRACTITIONER OR
MEDICAL OFFICER
WITH SPECIAL INTEREST IN PALLIATIVE CARE
Permanent Position
Minimum 3 days per week, with hours negotiable**

We have an exciting opportunity for a palliative care doctor, or a doctor with a special interest in palliative care to join our dynamic team at Hospice Whanganui.

Whanganui is a super groovy town in the lower North Island with a vibrant arts, culture and café scene, alongside amazing outdoor and recreational opportunities. It has a great climate and is central to many other towns and cities in New Zealand.

We are an engaging and vibrant group of people who are passionate about providing exceptional palliative care to all people in our community. We believe that everyone should have equal access to specialist palliative care in the place they choose to be. This means that, while we have a small in-patient facility, most of our services are provided in the community in patients' homes and in partnership with their whānau.

Our philosophy is to work in a truly holistic and integrated way to meet the total needs of our patients and their whānau and to support them to live the best life they can with the time they have left.

Our team consists of medical officers, nurse practitioner, registered nurses, social work/whānau support staff, health care assistants, pharmacist, and clinical support staff to enable a collaborative and inter-disciplinary approach to our work.

We work closely with many other partners across our community, including General Practice teams, Māori health providers, home-care providers, residential aged care facilities, St John's ambulance, Te Whatu Ora o Whanganui and the hospital-based team. We also work closely with Arohanui Hospice in Palmerston North.

This position will suit someone who is looking to join a forward-looking team of professionals who are committed to testing the status quo in order to bring excellent palliative care to people in this region. You will bring your passion for palliative care to make a difference in our community.

Please find the Job Description attached and to express an interest in the role, please email your CV and cover letter to wendyt@hospicewhanganui.org.nz or email Dr Wendy Tsai on the same email if you have any questions.

Job Description and Person Specification

Medical Officer

GOAL

To be a vibrant, learning and sustainable organisation that delivers excellence in specialist palliative care for the people of Whanganui

This job description is written for the position as at November 2022 and is subject to amendment from time-to-time.

Position title:	Medical Officer
Primary place of work:	Hospice Whanganui
Position status:	Permanent, Part-time
Hours of work:	0.6 FTE to Full-time (Negotiable)
Reports to:	Medical Lead

Purpose of position

To provide excellent palliative care to patients of Hospice Whanganui (HW) within the clinical scope of this position.

To provide 24/7 medical service on a rostered and rotational basis to all Hospice Whanganui patients, with the primary component of the role being community-focused.

To provide timely, specialist support to external partners, including GPs, Hospital clinicians, Aged Residential Care Providers, St John's Ambulance and others.

To actively contribute to HW's clinical excellence as part of an inter-disciplinary team (IDT), in line with its holistic ethos and in accordance with the NZ Palliative Care Standards.

To provide specialist medical support and training to staff, patients, whānau and external partners as required in line with the values of Hospice Whanganui.

Summary of Key Duties

Job Description and Person Specification

Medical Officer

1. Clinical responsibilities	2. Training and Professional Development
3. Teamwork and Collaboration	4. Health and Safety
5. Organisational Values	6. Te Tiriti o Waitangi
7. Other Duties	

KEY DUTIES

1. Clinical responsibilities

Responsibilities	Key Performance Indicators
Ensure that the highest standard of clinical care and management is provided to Hospice patients in line with the NZ Palliative Care Standards and Hospice Whanganui Standards.	<ul style="list-style-type: none"> • An equitable, specialist 24/7 medical service is provided that responds to the holistic needs of our patients and whānau. This includes symptom management, end of life care, and psycho-social support, in line with Hospice philosophy. • Registered Nurses (RN) and Nurse Practitioners are supported with effective triage of referrals and discharge from the service based on a sound understanding of referral criteria. • Patients are assessed and reviewed in a timely and efficient manner as determined by the inter-disciplinary team; and a shared care plan that reflects the patient’s goals of care is formulated for all patients.

Job Description and Person Specification

Medical Officer

	<ul style="list-style-type: none"> • Assessments and diagnostic services take into account the patient’s unique circumstances and use accepted assessment tools and methods (such as IPOS, AKPS etc). • Care is tailored to the patient’s preferences which includes visits to the patient’s place of residence, providing out-patient clinics, providing ‘virtual’ consultations or supporting care for patients admitted to the Hospice in-patient unit. • Timely support is provided to the inter-disciplinary team to manage complexity using critical thinking in a calm, considered manner. • Timely and effective communication with the primary care providers (including GPs and ARCs) as well as other providers (such as allied services, St John’s Ambulance, hospital staff and community/health services) ensure seamless and integrated care for the patient. • After-hour care (on a rostered basis) is provided in a timely way that aims to prevent unnecessary hospital admission and responds to patient need. • Accurate and timely documentation of clinical records and data are kept. This includes all required records in our patient-information systems as required by the organisation, professional standards and audit processes; and timely reporting and recording of all incidents or near-misses.
